

October 2025

ITMA ASIA + CITME 2025

TOYOTA INDUSTRIES CORPORATION will participate in the International Exhibition of Textile Machinery "ITMA ASIA + CITME 2025", which will be held at Singapore EXPO in Singapore from October 28th (Tue) to 31st (Fri).

Toyota will exhibit and demonstrate the latest technology of ring spinning frame "RX300" and air jet loom "JAT910" at Hall 3, Booth B204.

< Exhibits >

- Ring spinning frame "RX300" 1 machine
- Air jet loom "JAT910" 1 machine

For the ring spinning frame "RX300," Toyota will demonstrate by using the new compact system "EST4," which further expands versatility beyond conventional functions, enabling the pursuit and improvement of yarn quality suitable for various materials and applications.

For the air jet loom "JAT910," which is highly regarded for its energy-saving performance with the latest weft insertion system and excellent weaving capability, we will demonstrate with Toyota's unique electronic shedding motion "E-shed", achieving both high quality and high speed.
